Hoover and Nizis- WxPost 9/14/77 has an item on the Hoover-Nazi relationships up to Pearl Harbor. It is based on records obtained by the Scientologists under FOIA. If you would please call Carol Gallo at the Scientologist headquarters and ask her is she'd please send me copies of these records they obtained on Interpol only I'd appreciate it. I'd also like her to include a note giving the history and identification ofnthat case, just ebough for a footnote. Case number, when filed or when request filed, how long to compliance, etc. I think it will fit well into some writing I plan on Hoover now. It also may be quite relevant in the personal files matter. Thanks, HW 9/15/77
